

Your brand has a story to tell and ANIMATIONS are a powerful medium to BRING THEM TO LIFE.

HAVE A MESSAGE TO SHARE OR PRODUCT TO SELL?

You're in the right place! We know how important it is to tell your story the right way. Get all eyes on you with eye-catching and interactive animated videos that work.

See why many of the world's greatest brands have chosen EliteB Growth for their growth.

KEEPING YOU AGILE

Our agile customer-first process ensures that we can deliver value faster at every point of your video animation development with fewer headaches.

OUR VIDEO ANIMATION PROCESS

It can be difficult explaining complex and unfamiliar concepts to people.

Not to worry, we have broken the entire animation process into - easy to follow steps.

STEP 1

PRE-PRODUCTION

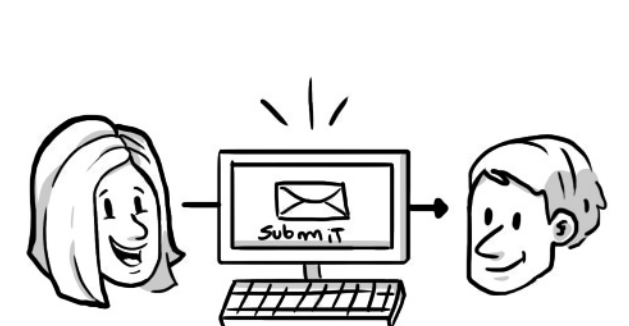

1. Choose a Style. You will be asked to choose between colored or whiteboard animation. This oriented on your message and target audience.

We specialize in creating custom animated whiteboard. You can check out this example: <http://elitebgrowth.com/video-animation/#lg=1&slide=9>.

2. Do you have a script? Need us to write your script? No problem. Share 10 bullet points illustrating the story you want to tell and we are good to go!

3. Voiceover talent. Nothing compliments a great script better than the right kind of voice. We have a library of talented professional voice overs you can choose from.

Can you guess which one our clients love most?

GET A PREVIEW.

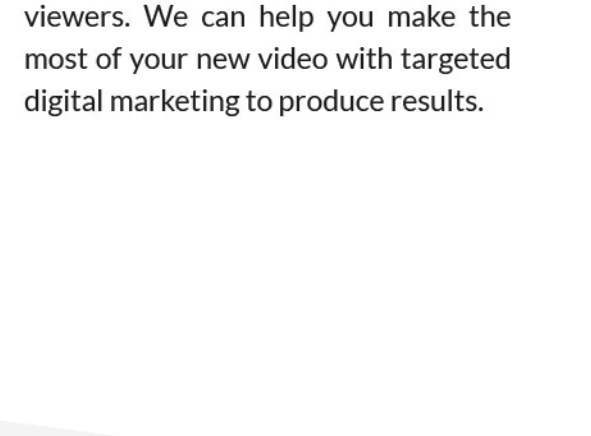

Once the script is approved, we begin working on a short preview sample. Once you approve the preview, then we begin our magic.

REVIEW AND DELIVER.

You can review your video and leave notes on our easy, accurate Vimeo editor platform. This helps with speed and accuracy, ensuring you get exactly what you want.

PUBLISH.

Your masterpiece is ready for your viewers. We can help you make the most of your new video with targeted digital marketing to produce results.

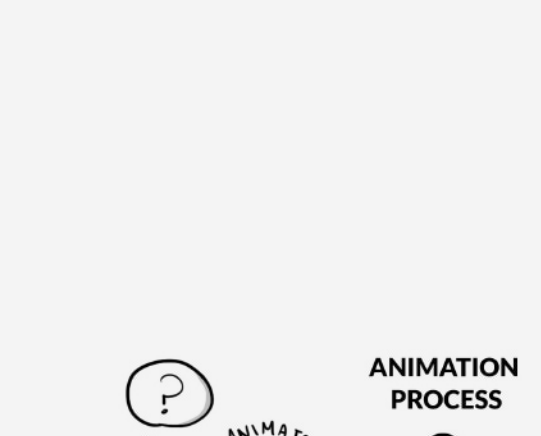

WHY CHOOSE US?

We have been delivering high-quality video animation solutions for a long time now. Over fifteen years to be precise. So, the question is why not? Here are some other reasons:
