<p>1. Because most consumables are packaged with plastics, it is almost impossible for Haitians to avoid using plastic.</p>	
<p>Often, these plastics are not being reused or recycled.</p>	
<p>Some 5,000 tons of waste is created each day in the Port-au-Prince area alone.</p>	
<p>Now, imagine that amount of waste created by all the families in Haiti as a whole.</p>
