- Ensuring that the final product aligns with the needs of the client and is delivered on time without exceeded the budget.
- Presenting the final animated piece to clients for their approval.
- Using creativity and artistic techniques to tell a story or provide information in visual form.
- Researching industry trends and developments and learning new applications.

PROFESSIONAL PROJECTS

Walking Speed Whiteboard Video - University of Colorado (11/2021)

- Colette was great to work with for creation of our video. She was very quick to respond and made terrific modifications following any feedback we provided to her. I would work with her again without hesitation and recommend anyone to work with Colette for their video needs.

CISAC Cyber Video Series Design Project - Stanford University (08/2019)

- Colette was great. She is a good problem solver and works very quickly. She asked for clarification when she was not sure what we wanted and produced a great end product.

Explainer Video For Community Grants - Microsoft

- I had one of my best positive experiences working with Colette. She was super understanding and patient throughout the process as I had multiple delays from my end. Her team delivered high-quality work and the video that they put together is very much appreciated by the Microsoft team. Great work Looking forward to collaborating on more projects.
